INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

Thompson had gone to New Madrid, we countermarched to this post, Nov. 15, '61, after a very hard and severe march. Nothing of interest occurred except the capture of 25 Thompson's men. With the exception of the above period, the regt. has been in camp near Cronston under strictest discipline, doing regular camp and picket duty; and each day when not otherwise necessarily engaged, has been devoting four hours per day to company and battalion drill; have also built and moved portable log huts.

RECORD OF EVENTS.

March 1st In camp at Lage Springs, Benton Co. Ark. March 2^d marched to Camp Cooper at distance of 8 miles ^{1 mile} west of Bentonville, Ark. Lay in camp here until March 6th when we were ordered to march to Sugar Creek Bottom at 2 P.M. We arrived at the Bottom about 12 o'clock. Immediately after arriving we heard cannonading in the direction of Bentonville and was ordered back immediately to support our rear guard commanded by Gen. Sigel who was engaging the enemy. We were met about 5 miles from Bentonville by the Genl. and ordered to retreat our skirts to the Bottom as he had already repulsed the enemy. At this place four companies of the who had been detached to get flour rejoined us. Then we again arrived at Sugar Creek Bottom and were once

ordered into camp on the 1st by 12 mile north of
Sugar Creek. During the night the enemy gained
the rear of our army and at 9 A. M. a battle was
commenced which raged continuously during the
day. Our regt was not ordered into the field until
3 P. M. at Leetown we were divided, the right com-
manded by Col. Coker going to the support of Gen.
Sigel's command and the left wing commanded
by Maj. Rodine was sent to reinforce Col. Carr.
The right wing was not engaged that
evening the left lay under artillery fire
about 40 minutes, but sustained no
loss. On the morning of the 8th the right was
again united and at 9 A. M. was ordered to
take position on the extreme right of the
left wing of the army supporting
Hoffman's Battery. We were among the
first troops in the field, marched $\frac{1}{4}$ of a
mile under a severe artillery fire from the
enemy and took cover under a fence. We
advanced steadily and in good order from
field to field, as we were ordered for
about three hours, when we were ordered
by Gen. Sigel to charge into the brush
on the enemy's flank. We advanced
about 80 yards when the enemy fired
upon us with their musketry which was
returned promptly and rapidly by our men
with telling effect when their lines after an
engagement of 30 minutes the enemy was
driven from his position. Our loss was 3 killed
17 wounded and three taken prisoners. The prisoners
have been exchanged and returned to regt. On
the 13th marched from the 9th to the 12th on
camp near Leetown to Camp Whiffley a distance
of 9 miles and remained there till the 18th on the 19
marched to Camp Hoffman Barry Co. Mo. dis-
tance 15 miles where we have been in camp
until the 31st.
